Editors

Elena Khayrulina, Christian Wolkersdorfer, Svetlana Polyakova, Anna Bogush

Cover Design

Karoline & Christian Wolkersdorfer

Layout and Typesetting

Jigsaw Graphic Design

Cover Photograph

Vasily Yakovlev – Photos flooded Levikha mine (Russia)

This book has been published with the financial support of the Ministry of science and Higher Education of Russian Federation

Papers with the © sign have been peer reviewed. All abstracts were initially reviewed by 2 – 3 experts of the International Scientific Committee.

Printed in Russia

1 MINE FLOODING

Przemysław Bukowski, Mirosława Bukowska, Nada Rapantova, Petr Hemza, Katarzyna Niedbalska	
Secondary Water Saturation of a Carboniferous Rock Mass in a Abandoned Mines as the Cause Behind the Changes in Geomechanical Conditions and State of Hazards in Active Mines of the Upper Silesian Coal Basin	3
Hou Enke, Che Xiaoyang, Luo Xiaoxia, Long Tianwen, Chi Baosuo	
Surface Water Inrush Mechanisms of Shallow Buried Coal Seams: A Single Crack Experiment and Discussion	10
I. S. Kopylov	
Estimation of Geodynamic Activity and its Effect on Mining-Geological Conditions and Flooding of Potassium Mines	16
Oleg Kovin	
Assessment of the Prospective Water Inflow Hazards Using Georadar: Case Study of Upper Kama Potash Deposit	23
J. Laubrich, Th. Metschies, A. Kassahun	
Sustainable salt management in mine affected surface waters	28
Tianhao Liu, Longqing Shi, Dongjing Xu, Ying Wan, Xingyue Qu	
Prediction Of Mining-induced Fracture In North China Coal Field Based On Orthogonal Test	34
Elke Mugova, Christian Wolkersdorfer	
Stratification in flooded Underground Mines – State of Knowledge and further Research Ideas	40
Qu Xingyue, Shi Longqing, Xu Dongjing, Qin Daoxia	
Bivariate Multivariate Nonlinear Prediction Model for the Depth of Damaged Floor in Working Area Based on MATLAB	45
Ying Wang, Longqing Shi, Weifu Gao, Dongjing Xu, Tianhao Liu, Xingyue Qu	
Prediction of the Confined Water Rising Zone in a Coal Floor Based on Fuzzy Theory (Fuzzy) – Gray Relation Analysis (GRA) – Particle Swarm Optimization(PSO) – Support Vector Regression (SVR)	53
Holger Witthaus, Christian Melchers	
Mine Water Monitoring in Abandoned Mines at RAG Aktiengesellschaft	59

2 MINE CLOSURE AND REMEDIATION

John G. Annandale, Phil D. Tanner, H. Meiring du Plessis, Jo Burgess, Zimone D. Ronquest, Sarah Heuer,	
Irrigation with mine affected waters: A demonstration with untreated colliery water in South Africa	71

Sisanda Gcasamba, Koena Ramasenya, Souleymane Diop, Viswanath Ravi KumarVadapalli, Stephen Ekolu	
Comparative study of two biggest mineral wastes in South Africa for mine reclamation: A geotechnical study	77
Cristiane Lisboa Girolletti, Maria Eliza Nagel Hassemer, Evanisa Fátima Reginato Quevedo Melo, Antonio Thomé, Jean Carlo Salomé dos Santos Menezes	
Neutralization Potential (NP) of a Porcelain Production Alkaline Waste in the Prevention of AMD Generation	83
Sandra Greassidis, Harro Stolpe, Katrin Brömme, Viet Quoc Trinh	
Comprehensive approach for mine water management in Vietnamese hard coal mines under transition	89
Dongjing Xu, Jinjin Tian, Tianhao Liu, Ying Wang	
Effects Of Deep Karst Water On The Release Of Potentially Toxic Metal Ions From Coal Gangue In Abandoned Coal Mine Region	95
S. L. Letjiane, J. P. Maree, M. S. Onyango, A Adeniyi	
Pre-treatment of coal dump leachate with MgO for pigment recovery	101
P. J. H. Lourens, P. D. Vermeulen, A. Allwright	
Aquifer Rebound Investigation at a Defunct Coal Colliery in South Africa	107
Ritva Muhlbauer, Johanita Kotze, Engel Rutherford, Rudolph Botha	
A case study of the importance of hydrogeology to mitigate environmental and technological challenges associated with mine closure options	113
Tamlyn S. Naidu, Craig M. Sheridan, Lizelle D. Van Dyk, Antony Higginson	
Acid Mine Drainage Pilot Remediation System using Waste Products from the Steel Manufacturing and Sugar Industries	121
T. Pinkse, R. Quensel, D. Lack, R. Zimmermann, T. Fliss, H. Scherzberg, H. Marx, S. Niessing, S. Deppe, M. Eichholtz, L. Waldmann	
Introducing a New Approach for the Stowage of Waste Brines from Potash Mines of the Werra District in Germany as a Measure to Ensure the Safe and Sustainable Continuation of Potash Extraction and Processing	127
Sean Rossouw, Craig Sheridan, Rob van Hille	
An Evaluation of Sugarcane Bagasse as a Feedstock in a Biological Treatment System for Mine Affected Waters	134
Emmanuel Sakala, Obed Novhe †, Viswanath Ravi Kumar Vadapalli	
Application of Artificial Intelligence (AI) to predict mine water quality, a case study in South Africa	140
Teresa Valente, Patricia Gomes, Maria Amália Sequeira Braga, Jorge Pamplona, Isabel Margarida Antunes, Carlos Alberto Ríos Reyes, Filipa Moreno	
Mineralogical Attenuation Processes Associated With The Evolution Of Acid Mine Drainage In Sulfide-Rich Mine Wastes	146

3 MINE WATER TREATMENT

- Masahiko Bessho, Radmila Markovic, Tatjana Apostolovski Trujic, Nobuyuki Masuda, Dragana Bozic, Zoran Stevanovic**
Recovery of Metals from Acid Mine Drainage Using Organic Polymer 155
- Ricky Bonner, Jivesh Naidu, Charné Germishuizen, Sebastian Franzsen**
Strategies for Treatment of Mine Impacted Waters with High Ammonia-N Feed Levels using Membrane Systems 161
- Gloria M Dube, Koena Ramasenya, Nicolaus Van Zweel**
The use of passive treatment systems to remediate AMD from abandoned coal mines, eMalahleni, South Africa – column experiments 167
- Elvis Fosso-Kankeu, Neeraj Kumar, Sadanand Pandey, Suprakas S. Ray**
Synthesis Of MoS_2 -Based Nanohybrid For Effective Removal Of Mercury From Aqueous Solution 175
- Mukwevho Nthambeleni, Elvis Fosso-Kankeu, Neeraj Kumar, Rashi Gusain, Suprakas Ray, Frans Waanders**
PAHs In Coal Tar As Water Contaminants and Their Removal by Photocatalytic Degradation 179
- Elvis Fosso-Kankeu, Reinhardt Weideman, Dumisani Moyakhe, Frans Waanders, Quentin Campbell**
Thermodynamic Study Of The Adsorption Performance Of Spent Coffee Beans For The Removal Of Cadmium From Coal Tailing Leachates 184
- I. Glushankova, L. Rudakova**
Justification the Possibility of Sludge Storage Use for Liquid Wastes from the Potash Industry as Settling Ponds 189
- Kentaro Hayashi, Tsubasa Washio, Kazuhiro Kojima, Yusei Masaki, Akihiro Kanayama, Takaya Hamai, Mikio Kobayashi, Nobuyuki Masuda, Masahiro Sowanaka, Takeshi Sakata**
Pilot-scale Tests of Passive Treatment System for AMD in Japan 195
- Lucinda B. Johnson, Meijun Cai, Chan Lan Chun, Adrian Hanson, George Hudak, Igor Kolomitsyn, Shashi Rao, Beth Bernhardt, Tobin Deen, Jerald Henneck**
Responding to Minnesota's Regulatory Sulfate Standard for Wild Rice Waters 199
- D. V. Makarov, A. V. Svetlov, A. A. Goryachev, V. A. Masloboev, V. G. Minenko, A. L. Samusev, E. A. Krasavtseva**
Mine Waters of the Mining Enterprises of the Murmansk Region: Main Pollutants, Perspective Treatment Technologies 206
- Maria A. Mamelkina, Paula Vehmaanperä, Ritva Tuunila, Mika Sillanpää, Antti Häkkinen**
Electrochemical treatment of mining waters 212
- Malibongwe Shadrach Manono, Kirsten Claire Corin, Jenny Gael Wiese**
Inorganic Electrolytes on the Efficacy of a Carboxymethyl Cellulose as a Coagulant for Talc: Implications for Talc Depression in Flotation 217

Malibongwe Shadrach Manono, Kirsten Claire Corin, Jenny Gael Wiese To Recycle or Not? A Bench Scale Simulation of Water Recirculation in Sulfidic Cu-Ni Ore Flotation	225
Nobuyuki Masuda, Radmila Marković, Dragana Božić, Masahiko Bessho, Toshio Inoue, Koji Hoshino, Daizo Ishiyama, Zoran Stevanović Experiment Results of Metal Recovery by a Two-Step Neutralization Process from AMD from a Copper Mine in Serbia	232
Alseno K. Mosai, Luke Chimuka, Ewa M. Cukrowska, Izak A. Kotzé and Hlanganani Tutu The Recovery Of Pd(II), Ir(III) And Rh(III) From Aqueous Solutions With Yeast- functionalised Zeolite	238
Mwagandi Shadrack Mwakio Influencers of Adoption of Mine Water Treatment Technologies in Taita Taveta County, Kenya – A Case of Aquamines Ltd	245
Frank Nkansah-Boadu, Susan A. Baldwin Biological Removal of Selenium from Mining Influenced Waters: A Critical Review of Challenges	250
Joscha Opitz, Matthias Alte, Martin Bauer, Stefan Peiffer Testing Iron Removal in a Trifurcated Pilot Plant for Passive Treatment of Circum- neutral Ferruginous Mine Water	256
Sarah A. Rose, Zoe N. Matthews, Gareth Morgan, Chris Bullen and Peter Stanley Sono-electrochemistry (Electrolysis with assisted Power Ultrasound) Treatment Trials of discharges from Cwm Rheidol – Ystumtuen mines, Ceredigion, Mid Wales, UK	262
Karine Batista dos Santos, Vítor Otacílio de Almeida, Jéssica Weiler, Jean Carlo Salomé dos Santos Menzes, Ivo André Homrich Schneider Ecotoxicity with <i>Allium cepa</i> to determine the efficiency of conventional ARD treatment by neutralization/precipitation from a brazilian coal mine	269
Stuede Grit, Maghanga Justin, Ulrike Feistel, Matata Koti, Segor Fred Electrochemical Removal and Kinetics in the Removal of Fluoride from Underground Water in Kenya	275
Artyom Tishchenko, Elmira Bakieva, Lyudmila Litvinenko, Irina Ivshina Resistance of Actinobacteria of the genus <i>Gordonia</i> to potentially toxic metals	281
Stéphane Vaxelaire, Bastien Jally, Fabienne Battaglia-Brunet, Jérôme Jacob The Development Of A Treatment Process For The Mine Water Containing Arsenic And Thiocyanate From Lab Scale To Pilot Plant Scale	286

4 MINE WATER REGULATION

Bazardorj, Sod-Erdene; Purevsuren, Uuganbayar Undai river diversion project in Oyu Tolgoi	295
T. Karavaeva, E. Ushakova, I. Shchukova Disposal of open-pit and wastewaters of EVRAZ KGOK	297

Lufuno Ligavha-Mbelengwa, Godfrey Madzivire, Tebogo Mello, Henk Coetzee Assessment of Water Quality in the Witwatersrand Basin using Inorganic Contaminants	301
Mien Tran, Tam Tinh Nguyen, Tuan Anh Ho Mine Water Management under Seasonal Rainfall Condition	308
Anne Weber, Felix Bilek, Kathleen Lünich Biological Treatment of Mining Impacted Groundwater and Streams – an Option to Meet European Legal Standards?	314
Qiang Wu, Shuai Yu, Wenping Mu, Jingchuan Ma, Shouqiang Liu, Yifan Zeng, Honglei Liu Hydraulic-economic optimal management model of mine water resources: an example is Suancigou Coal Mine in western China	320

S MINE WATER HYDROGEOLOGY

I. M. H. R. Antunes, R. J. S. Teixeira, A. M. R. Neiva, M. T. D. Albuquerque, T. M. F. Valente, A. C. T. Santos Spatial water interaction in radium/uranium mines – a Portuguese case study	329
I. M. H. R. Antunes, T. M. F. Valente, P. Gomes, M. R. Costa, R. Fonseca, F. Moreno Spatial distribution of acid mine drainage indexes in different water environments	334
Haibo Bai, Luyuan Wu, Guangming Wu, Shixin He Mechanism And Prevention Techniques Of the hazardous Burst of Interlayer-sagging Water Body	339
Dong, Donglin, Gao, Yixuan, Lin, Gang, Zhang, Yiyang Hydrochemical Characteristics Analysis and Water Source Recognition for the Mixed Mine Water: A Case Study of the Jinggezhuang Mining Area	342
Vasilii Efimov, Sergey Chalov, Ivan Timofeev, Natalia Kosheleva Effect of coal mining activities on the surface water quality	349
Enke Hou, Zhuochen Ji, Xiaoyang Che, Jianwen Wang, Lijun Gao, Shixiong Tian, Fan Yang Water abundance prediction method of weathered bedrock based on improved AHP and the entropy weight method	357
Altus Huisamen How Much Is Enough? Developing an International Standard of Reporting for Mine Water Hydrogeology	365
Angelo Johnson, Jacobus Nel, Kelley Reynolds-Clausen Hydro-Geochemical Properties of Class F Fly Ash When Leached with Acid Mine Drainage	369
Georg Wieber, Marion Stemke Pump Tests in Deep Ore Mine Shafts for the Evaluation of a Possible Geothermal Use	375
Yajun Sun, Zhimin Xu, Yuhua Wu, Shitian Zheng The advance detection and treatment of karst collapse columns – A case study of the Renlou Coal Mine in Anhui Province, China	379

- Ying Wang, Mei Qiu, Longqing Shi, Dongjing Xu, Tianhao Liu, Xingyue Qu**
A GIS-based Model of Potential Groundwater Yield Zonation for A Sandstone Aquifer based on the EWM and TOPSIS Methods 387
- Zhimin Xu, Yajun Sun, Shang Gao, Hongying Chen, Minghao Yao**
Influence of Karst Collapse Column on Coal Mine Safety Mining - A Case Study of the Yangjian Mine in Shuozhou Mining Area, Shanxi Province, China 394

6 MINE WATER GEOCHEMISTRY

- Alireza Arab, Broder Merkel**
Heat and Mineral Mining by adding CO₂ to Deep Groundwater 403
- M. Dolores Basallote, Carlos Ruiz Cánovas, Rafael Pérez-López, Manuel Olías, Francisco Macías, José Miguel Nieto**
Metal partitioning and pH-buffering during mixing processes in an estuary strongly affected by acid mine drainage – The Ria de Huelva estuary (SW Spain) 409
- Pavel Belkin**
Transformation of Trace Element Composition of Fresh Natural Waters in the Central Part of Upper Kama Potash Deposit 415
- Patrícia Gomes, Teresa Valente**
Physical and chemical conditions for colonization by *Euglena mutabilis*: case studies in two acid mine drainage sites 419
- Lusunzi Rudzani, Obed Novhe †, Tlou Mashalane †**
Geochemical and Mineralogical Characterization of Precipitates from Sabie-Pilgrim's Rest Goldfields for the Potential of Acid Mine Drainage 425
- D. Kirk Nordstrom**
Geochemical Modeling for Mine Site Characterization and Remediation 431
- L. L. October, K. C. Corin, M. S. Manono, N. Schreithofer, J. G. Wiese**
Considering the Ionic Strength and pH of Process Water on Bubble-Particle Attachment of Sulfide Minerals: Implications for Froth Flotation in Saline Water 437
- Anatolii Opekunov, Marina Opekunova, Stepan Kukushkin, Vsevolod Somov, Vladimir Spasskij, Elena Yaskevich**
Transformation of the acid mine drainage composition of the Sibay chalcopyrite deposit on the geochemical barriers of the river system 445
- Carlos Ruiz Cánovas, María Dolores Basallote, Francisco Macías, Manuel Olías, Rafael Pérez-López, Jose Miguel Nieto**
Metal fluxes from the Tinto River (SW Spain) to the Atlantic Ocean: importance of flood events 451
- Teresa Maria Valente, Isabel Margarida Antunes, Maria Amália Sequeira Braga, Ana Neiva, António Santos, Filipa Moreno**
Mobility Control Of Uranium And Other Potentially Toxic Elements In Mine Waters By Ochre-Precipitates 457

Changshen Wang, Li Qing

Hydrogeochemical and water cycle features of groundwater at a western arid coal mine in the Ordos Jurassic coal province, China

463

7 PIT LAKES

Andrew Johnstone

Are Pitlakes An Environmentally Sustainable Closure Option For South African Coal Mines?

469

Mark Lund, Jonas Polifka, Marilyn Quintero Vasquez, Ravish Ramesseur, Ryan Bignell, and Denchen Yangzom

Sedimentation Rates In Two Pit Lakes: Implications For Riverine Flow-Through As A Closure Strategy.

477

Raúl Moreno-González, Manuel Olías, Carlos Ruíz-Cánovas, Francisco Macías

Acid Mine Drainage Pollution at the Tharsis Mines (Iberian Pyrite Belt): A Serious Environmental and Socioeconomic Problem

484

Liudmila Rybnikova, Petr Rybnikov

Groundwater Quality Formation at Drinking Water Intakes Near a Flooded Pit (Middle Urals, Russia)

491

8 EXTRACTING OF VALUE ELEMENTS OF MINE WATER AND TAILINGS

Rirhandzu Jeaneth Novela, Mugeru Gitari, Wasiu Babatunde Ayinde

Cavitation of Acid Mine Drainage-Magnesite Mixtures: A Promising Acid Mine Drainage Treatment Technology

499

Alfia Khusainova

Supergene Gold in the Gold-Bearing Wastes of Sulfide Deposits

504

Svetlana Kovrizhnykh, Vladimir Naumov, Dmitriy Abroskin

Hydrogenic processes of autigenic mineralization of native gold of the Ural placers

509

Joseph Ddumba Lwanyaga, Hillary Kasedde, John Baptist Kirabira

Mineral Precipitation Sequence During Evaporation of Lake Katwe Brine

515

Jean Carlo Salomé dos Santos Menezes, Angéli Viviani Collig, Antônio Thomé and Ivo André Homrich Schneider

Ferric Sulphate Produced From Pyrite Concentrate of Coal Tailings to Water and Wastewater Treatment

522

Elena Menshikova, Sergey Blinov, Sergey Vaganov

Recovery of valuable elements from tailings of the Kachkanar Ore Mining and Processing Plant

527

Kseniya Movzitova, Il'ya Plyusnin

Formation of Industrial Gold-bearing Objects in the Development of placers on the Marakan River (Eastern Siberia)

531

- V. A. Naumov, A. Fiorucci, V. V. Goldyrev, V. N. Bryukhov**
Dissolution and Redistribution Mechanisms of Gold inside the Tailings (Mine Dumps)
and their applied Significance 535
- Aleksey Puzik**
Useful Component Recovery from Saranovskaya Mine Rudnaya Wastes 539

9 GEOTECHNICAL ISSUES RELATED TO MINE WATER

- Binglun Gao, Wanghua Sui**
Numerical Simulation Investigation on Water-sand Mixture Flow through a Single Fracture
547
- Weitao Liu, Jiyuan Zhao, Rui'ai Nie, Baichao Xu, Xi Sun**
The Software Development for Establishing Thermal-Hydraulic-Mechanical Coupling
Models of Fractured Rocks 552
- Iwona Augustyniak, Katarzyna Niedbalska, Przemysław Bukowski**
Use of the permeability test of Carboniferous rocks in the underground coal mines
located in the Upper Silesian Coal Basin 559
- John Waterhouse**
Integrating Hydrogeology with Geotechnical Engineering 564
- Victor B. Kolpakov, Sergey V. Zhdanov**
Implementation of slope drainage system for optimal slope design at Anfisa open pit,
Khabarovsk Territory, Russian Federation 570

10 HYDROGEOLOGICAL AND HYDROGEOCHEMICAL MODELING

- Alan Cotton, Philippe Orban, Samuel Wildemeersch, Pauline Collon, Vincent Hallet, Serge
Brouyère**
Active Dewatering Of Limestone Quarry And Drinking Water Production – Feasibility
Assessment Using A Groundwater Model 579
- Anthony Le Beux, Amadou Boubacar, Farook Assalack, Pierre Grizard**
Open Pit Dewatering in Niger, from Groundwater Modeling Forecast to in-pit Water
Management 585
- Natalia A. Miletenko, Vladimir N. Odintsev, Eugene V. Fedorov**
Snowmelt Water Breakthrough into Coal Mine in Sub-Arctic Region 591
- Kagiso More, Christian Wolkersdorfer**
Disruptive Technologies in Mine Water Management – The Future 597
- Annalisa Vicente, Jacobus Nel, Kelley Reynolds-Clausen**
Assessing Different Coal Combustion Residue Scenarios in Opencast Coal Mines,
Mpumalanga, South Africa 602

11 MINE WATER AND ISOTOPES

Andrey Bogomolov, Anatoly Lepihin

Aspects Of The Organization Of Regulated Assignment Of Excessive Brines In Superficial Water Objects Of The Entities Of The Potash Industry (on the example of the Verkhnekamsky field of potash and magnesian salts) 609

Innocentia G. Erdogan, Elvis Fosso-Kankeu, Seteno K. O. Ntwampe, France B. Waanders, Nils Hoth, Andrew Rand

Acid rock drainage prediction of metalliferous soils from O’Kiep, Namaqualand, South Africa: A Humidity Cell Test assessment 613

William Goodman, Stephen Phillips, Deon Van Dyk, Nico Grobler

Conceptual Isotope Hydrostratigraphic Models for North American Sedimentary Basins: Understanding Water Sources in Deep Subsurface Mines 619

Olga Kadebskaya, Yuri Dublyansky, Lyubov Kadebskaya

The isotopic composition of hydrothermal waters and carbonate deposits in the adits of the Baksan Neutrino Observatory 625

Shucaï Liu, Changshen Wang

Shift of mine water inflow from fissured coal layer aquifer to thick overlying aquifers: a western Jurassic coal mine, China 629

Eduard Maleev, Valery Goldyrev

Isotopic Composition of Underground and Surface Waters at the Uzbekstan Tyubegatan Potassium Salts Deposit 632

12 ENVIRONMENTAL MONITORING

Boris Bachurin

Organic matter of mine water and mining waste 639

Melanie L. Blanchette, Mark Lund, Michael Moore, Digby Short

Incorporating microbes into environmental monitoring and mine closure programs: river diversions as test beds 645

Wenfeng Du, Suping Peng, Guowei Zhu

Aquifer Variation Characteristics of Coal Overlying Strata by Time-lapse Resistivity Monitoring 652

Tatyana Fadeeva, Ilya Chaikovskiy, Elena Chirkova

The biota in the brine discharge area of Ludmilinskaya well (Solikamsk, Russia) 656

Annia Greif, Sven Eulenberger, Peter Schmidt, Michael Paul

From remediation supervision to long-term surveillance – Ground and surface water monitoring at a former uranium processing site 660

Vladimir Kolesnikov, Tatiana Laskina

Complex electromagnetic monitoring of salt mines 666

Outi Laatikainen, Dr. Susanne Mulbah, Timo Pyhälähti, Kaarina Prittinen Stakeholder Participation in Sulphate Monitoring in Lake Nuasjärvi, Finland	672
Michael Losavio, Adrian Lauf, Adel Elmaghraby The Internet of Things and Issues for Mine Water Management	678
Tatyana Lyubimova, Anatoly Lepikhin, Yanina Parshakova The models for the description of highly mineralized brines behavior in surface water bodies	684
Zorana Milošević, Ramon A. Suarez Fernandez, Sergio Dominguez, Claudio Rossi Guidance and Navigation Software for Autonomous Underwater Explorer of Flooded Mines	690
Mitrakova Natalya, Khayrulina Elena Soil monitoring of complex salinization under potash mining	696
B. M. Osovetsky, I. V. Badyanova Natural Environmental Pollutants in the Black Shale Zones	701
Anna Shilova, Aleksandr Maksimov, Yuliya Maksimova Phylogenetic diversity of microbiota of sediments, water and coastal surface technogenic formations of soda sludge storage (Berezniki, Perm region, Russia)	706
Josepha SDR Zielke-Olivier, Danie Vermeulen Developing a risk assessment for local groundwater degradation by mine waste storage facilities	711

13 FUTURE OF THE CLOSED KIZEL COAL BASIN

Natalia Fetisova, Viacheslav Fetisov, Boris Bachurin, Aleksandr Imaikin Natural Neutralization of Acid Mine Water in Carbonate Deposits of Kizel Coal Basin	719
Alexander Kostin, Pavel Krechetov, Olga Chernitsova Alteration Of Physico Chemical And Morphological Characteristics Of Sod-podzolic Soils In Technogenically-affected Landscapes Of Moscow Brown Coal Basin	725
S. M. Blinov, S. A. Krasilnikova Using the industrial wastes for remediation of sites affected by acid mine water dumping	731
Nikolay Maksimovich, Vadim Khmurchik, Artem Demenev, Alexey Sedinin, Olga Berezina The General Concept of Kizel Coal Basin Remediation	736

14 MODERN EDUCATION FOR GEOLOGICAL SPECIALITIES

Elena Gritsenko, Svetlana Polyakova, Svetlana Snegova, Olga Baiburova, Lev Pleshkov Integrating Massive Open Online Courses in the ESP Programs for Students of GeoScience	743
Oksana Naumova, Vladimir Naumov, Boris Osovetsky, Boris Lunev Training of Specialists and Masters on Geology in the Field of Placers, Technogenic Deposits and Research the Microstructures of Substance in Perm University	748

Svetlana Polakova, Joseph lane, Michael Losavio, Elena Gritsenko, Svetlana Snegova, Konstantin Klochko, Maria Firstova	
International Collaboration in Geo Science Education via Project Based Learning	753
Stefanie Walter	
Storytelling Via Digital Media As A Success Factor In Education For Geological Specialties	759
Elena Yakovaleva, Svetlana Polyakova, Svetlana Mishlanova, Larissa Alekseeva, Elena Gritsenko, Elena Khairulina, Joseph lane, Elina Erzikova	
International Teleconference Project «Environmental Issues of the World» in Teaching English to Geoscience Students	765
