## CONTENTS

Preface	3
<b>I Rijlant Memorial Lecture</b>	
Hormone reception and intracellular signal transduction in the cardiovascular system <i>Tkachuk V.A.</i>	13
<b>II Plenary Lectures</b>	
Cardiovascular risk stratification using RR intervals <i>Macfarlane P.W., Devine B., Latif S., Clark E., Sosnowski M., Norrie J.</i>	25
The decrease of specific potential of myocardium in early stage of experimental hypertension <i>Bacharova L., Kyselovic J., Klimas J., Radman A.</i>	30
Relationships between basic science and clinical electrocardiography <i>Liebman J.</i>	38
The whole heart computer model and electrocardiograms <i>Harumi K., Kondo M., Okazaki O., Okamoto Y.</i>	48

### III. Young Investigator's Award Session

- Protective action of regulatory peptides in vagally induced arrhythmias  
*Osadchiy O.E.* 57
- Efficient method for modeling defibrillation  
*Skouibine K., Krassowska W.* 64
- State of myocardium in patients with mitral valve prolapse:  
do myocardial hibernation and myocardial stunning exist?  
*Muhin N.A., Fomin V.V.* 70

### IV. Electrophysiology of the Heart

- The dynamics of the initiating center in sino-atrial node when the heart  
reproduces the rhythm of impulse volleys coming through vagus nerves  
*Pokrovsky V.M., Abushkevitch V.G., Fedunova L.V., Samoilenko M.V.,  
Didenko D.D., Zubarchin A.G., Nichipurenko A.A., Pasyuga V.V.,  
Vyskubova E.V., Chropova T.N., Dmitrenko L.E., Radchenko J.A.* 79

### V. Measuring and Modelling of Myocardium

- Ventricular epicardial recovery properties under ectopic activation  
of heart ventricles in the rabbit  
*Azarov J.E., Roshchevsky M.P., Shmakov D.N., Vityazev V.A.,  
Roshchevskaya I.M., Arteyeva N.V., Kharin S.N.* 91
- Dependence of duration of ventricular epicardial excitation  
on pacing site localization  
*Mostivenko K.K., Shmakov D.N., Roshchevskaya I.M.* 97
- Vectorial manifestation of repolarization disparity  
in the ventricular wall. A model study  
*Szathmáry V., Stankovičová T., Ruttkay-Nedecký I.* 101
- Computer model of the ventricle wall:  
temperature profile — correlation between the depolarization front  
and phases of the repolarization process — ST-T genesis  
*Baum O.V., Popov L.A., Voloshin V.I.* 107

Pseudo-ECG as an integral characteristics for electric activity estimation of the excitable myocardium specimens <i>Baum O.V., Popov L.A., Voloshin V.I., Medvinsky A.B. Kukushkin N.I.</i>	108
Localization of early activation sites using measured BSPM data <i>Tiňová M., Tyšler M., Turzová M.</i>	114
Computer model for simulating the process of excitation propagation in cardiac tissue <i>Konovalova I.N., Kobrin V.I., Konovalov M.G.</i>	121
Computer simulation of repolarisation changes in arrhythmogenic right ventricular dysplasia <i>Corlan A.D., De Ambroggi L.</i>	127
<b>VI. Comparative Electrocardiology</b> <b>(V<sup>th</sup> International Symposium on Comparative Electrocardiology)</b>	
Comparative electrocardiology: history and prospects <i>Roshchevsky M.P.</i>	135
What specialized system, pacemaker or conducting does exist in cyclostomata and fish heart? <i>Prosheva V.</i>	137
Rapid heart response — the mechanism of wild animals' adaptation <i>Roshchevsky M.P., Chermnykh N.A.</i>	142
Myocardial activation in vertebrates. New approaches to the study of evolution of cardiac activity and blood circulation system <i>Shmakov D.N., Roshchevsky M.P.</i>	143
Body surface potential mapping in the new-born rat <i>Roshchevskaya I.M.</i>	148
Reversible changes in the functional activity of the heart in the presence of adenosine 5'-monophosphate <i>Sosulina L.Y., Lankina D.A., Negoulyayev O.V., Korystova A.F., Kokoz Y.M., Sukhova G.S.</i>	152

## VII. Body Surface Potential Mapping

- Search for repolarization disparity sensitive parameters  
of body surface potential maps  
*Kozmann Gy., Farkas N., Szokolczai K.* 161
- Decarto technique in recognition of old myocardial infarction  
in patients with LBBB  
*Sakhnova T.A., Saltykova M.M., Romanchuk P.I.,  
Trunov V.G., Aidu E.A.I., Titomir L.I.* 167
- Consilium of diagnostic algorithms in computer electrocardiology:  
a general conception  
*Baum O.V.* 171
- Relationship between the response to exercise test and the extension  
of potential loss in non-Q wave myocardial infarction  
*Medvegy M., Préda I., Nadeau R.A., Savard P., Pintér A.,  
Tremblay G., Nasmith J., Palisaitis D., Duray G.* 172
- Unusual manifestations of preexcitation  
in patients with the Wolff-Parkinson-White syndrome  
*Préda I., Pintér A., Székely Á., Duray G., Zámolyi K.* 177

## VIII. Clinical ECG, Signal Averaged ECG, VCG and BSPM

- New electro- and vectorcardiographic findings for identification  
of association between anterior-superior and posterior-inferior  
fascicular left bundle branch blocks in cardiomyopathies  
*Pastore C.A., Tobias N.M., Kaiser E., Moffa P.J.,  
Péres A., Samesina N., Ramires J.F.* 183
- QT dispersion in patients with ventricular fibrillation  
or ventricular tachycardia during coronary vasospasm  
*Shimizu S., Horibe H., Matsubara F., Takemoto K.,  
Watarai M., Shiga Y., Takatsu F.* 192

T wave pseudonormalization during exercise test in patients with chronic myocardial infarction induced improvement of left ventricular function after coronaric revascularization <i>Lunardi M., Galetta F., Cordonni M.</i>	199
Maximum spatial QRS and T vectors in young subjects with "high normal" blood pressure <i>Regecová V., Andrásyová D., Krč-Turbová Z.</i>	200
Heart vectorcardiographical monitoring and arterial hypertension: new clinical electrocardiology aspects <i>Romanchuk P.I., Volobuev A.N.</i>	206
Electrocardiographic QRS axis calculation versus vectorcardiographic data in pilots <i>Carson W., Ho B.L.</i>	212
Electrocardiogram of the northern inhabitants <i>Varlamova N.G., Evdokimov V.G.</i>	215
Physiological rate responsive pacing: experience of use at the patients of children's and young age <i>Nuzhny V., Solokha E.</i>	223
Peculiarities of electrocardiograms and rhythmograms in old people <i>Chernnykh N.A., Loginova T.P.</i>	225
<b>IX. Clinical Electrophysiology of Arrhythmias</b>	
Indices of vulnerability to arrhythmias in arrhythmogenic right ventricular dysplasia <i>De Ambroggi L., Corlan A.D.</i>	235
Vectorcardiographic QRS loop areas IV. Changes in subjects have treadmill exercise tests and thallium-201 single photon emission computed tomography <i>Carson W., Chen Y.K., Cheng C.Y.</i>	240

Increased vulnerability of no-deficient rat heart to low $K^+$ induced ventricular fibrillation <i>Tribulová N., Manoach M., Okruhlicova L., Stetka R., Pancza D., Bernatova I., Pechanova O.</i>	244
Spontaneous ventricular defibrilaton <i>Manoach M., Tribulová N.</i>	247
Radiofrequency ablation in treatment of atrial tachyarrhythmias: experience of use <i>Nuzhny V., Solokha E.</i>	253
The variants of spontaneous defibrillation in acute experimental ischemia of the myocardium <i>Dvornikov V.E., Dvornikov V.V.</i>	257
Neurogenic cardiac arrhythmias: clinical and pathophysiological aspects <i>Batyanov I.S., Shprah V.V., Sinkova G.M., Sinkov A.V., Timofeeva N.I., Kupriyanova A.V.</i>	258
Prevalence of arrhythmias in Holter electrocardiography <i>Batyanov I.S., Timofeeva N.I., Kupriyanova A.V., Sinkova G.M., Lemzyakova V.P., Sokolnikova I.V., Ahmedov R.D.</i>	259
